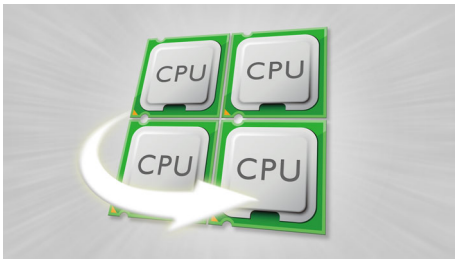
Highlights

Classic clamshell design

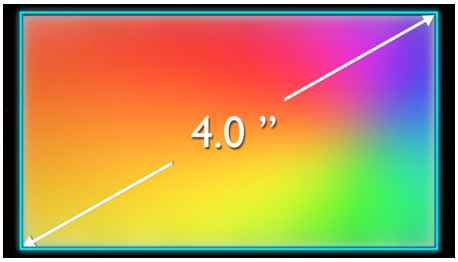
With its semi opaque clamshell design, your Philips mobile phone is clearly one that resonates with timeless style. Classic yet sophisticated, it is bound to complement your persona regardless of your personal taste. There is no doubt that this phone is a clear winner.

1.2GHz quad core processor



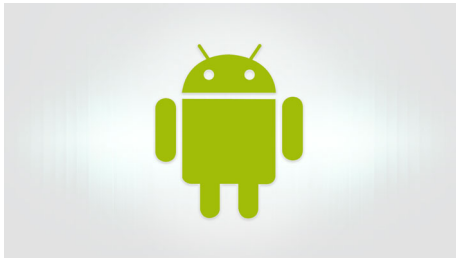
Your Philips mobile phone now zooms along like never before, thanks to the powerful 1.2GHz quad core processor. This powerhouse keeps up easily with your multitasking demands at a much faster speed. Load web pages with lightning speed, watch uninterrupted videos plus get animations fast- and we mean fast! Gaming is seamless and immersive with exceptional picture quality.

4" qHD IPS display



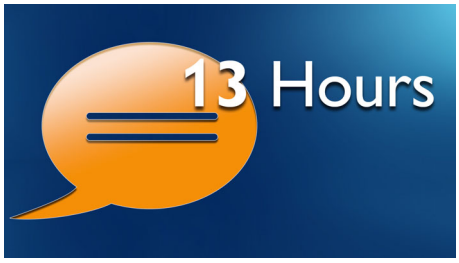
Your Philips mobile phone comes endowed with an awesome 4" qHD IPS display that will be the envy of all your peers. The IPS technology ensures great viewing from any angle, while the vibrant colors and vivid images render a full-bodied viewing experience. To top it off, navigating on the wide screen is also swift and effortless. Whether you are showing off your latest snapshots to friends or surfing your favorite websites, the 4" screen gives you an unbeatable visual treat while on the go.

Android 4.2



Empowered by Android, your Philips mobile now comes with a fully customizable mobile platform that is open to a wide range of smart applications and functions. Find your pocket PC, games console and telephone all rolled conveniently into one.

Up to 13 hours talk time



The phone can support up to 13 hours conversation on a single charge.

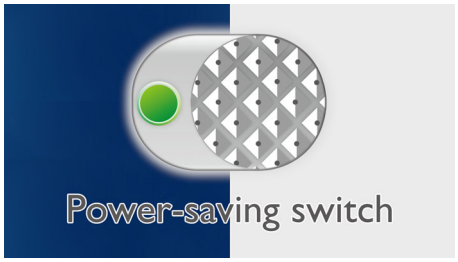
Up to 8 hours web browsing

Enjoy web browsing for up to 8 hours on a single charge.

Dual mode (WCDMA and GSM)

Your Philips mobile phone incorporates two SIM cards to allow you access to WCDMA and GSM network connections at the same time. Now you can enjoy wider mobile coverage on two networks with just one phone.

Power-saving switch



This Power-saving switch may well be the most convenient feature on your Philips mobile phone. By clicking the button located on the side panel, you can enable this function to help preserve your phone battery. It will shut down the WiFi, GPS and Bluetooth functions, while dimming the screen display simultaneously. Besides avoiding the multiple clicks needed to do likewise on other phones, this clever yet convenient button is definitely a lifesaver for heavy phone users.
